# The Story behind Anytime Soccer Training

Hi, I'm Neil Crawford, the creator of Anytime Soccer Training and I want to welcome you and share why we developed this program.

As a soccer dad of two boys who love soccer, I was excited to sign them up for a team.

**However, I quickly noticed that kids who practiced at home tended to be more confident, enjoy the game more and play longer.**

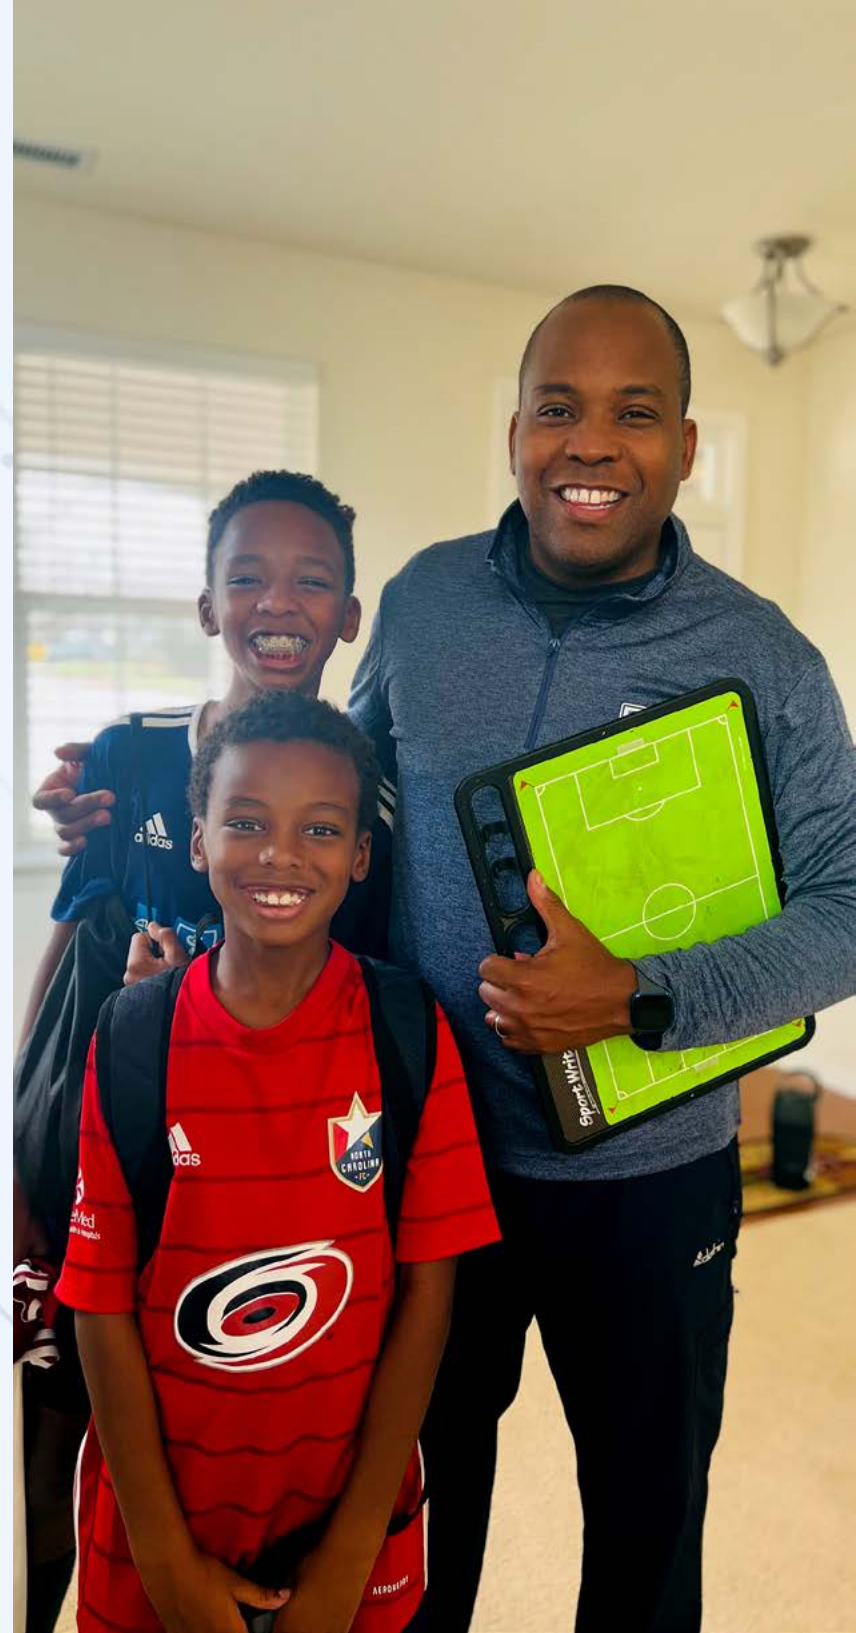

This motivated me to help my children improve their skills by practicing and playing at home. However, like many parents, I found it impossible to find a comprehensive and affordable program that was easy-to-use.

**I spent hours searching YouTube for soccer training videos, but they lacked structure and were not follow-along. I needed a program that was easy-to-use and went step-by-step.**

Later, as a coach, I faced similar challenges, including assigning homework and tracking players' progress.

That's the inspiration behind Anytime Soccer Training. Our program offers affordable, comprehensive, and engaging videos that can be accessed by every family anytime, anywhere. Our follow-along videos and coaching support help players develop the technical skills they need to succeed.

We work with clubs from all over the world. In this presentation, we'll share how Anytime Soccer Training has helped one club improve player development and foster stronger relationships with their players' families.

# Increasing Club Engagement and Player Development: The Benefits of Anytime Soccer Training

## Free Onboarding Saves Coaches Time

Free onboarding offers a win-win situation for players, families and coaches. It includes account and team setup, customer support, logo uploads, welcome emails, and training resources. The result is players get better while coaches save time.

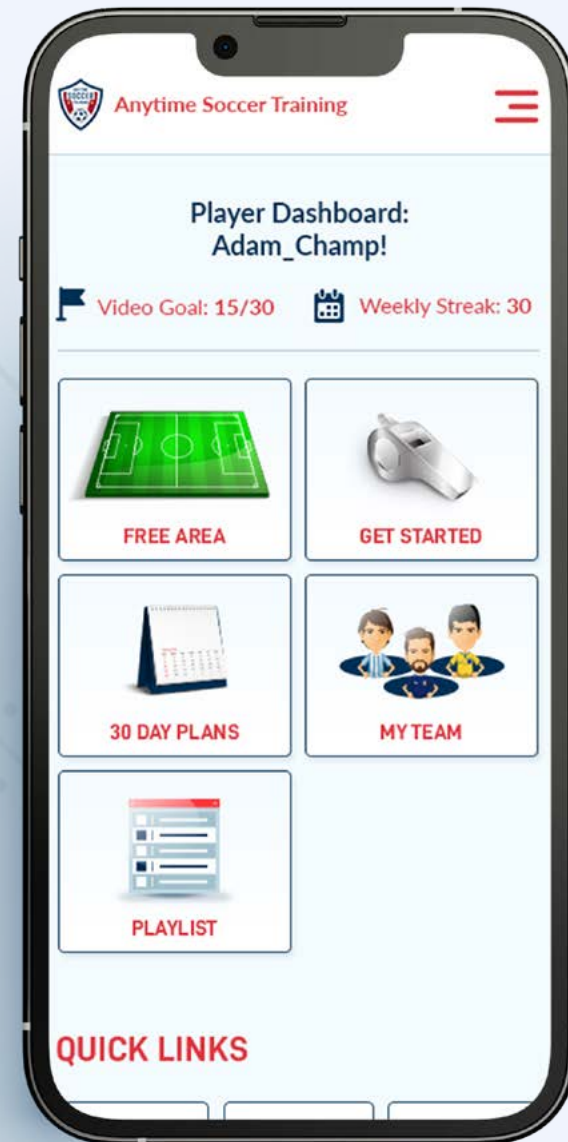

## Unlimited Teams

Teams enable coaches to set training goals, monitor player progress, assign homework and send messages. Players compete on the leaderboard staying engaged and holding each other accountable.

## 5,000+ Videos: Free and Affordable

Free lifetime memberships that include access to high-quality training videos and the ability to create teams at no cost. Upgrading to the 5,000+ training videos starts at just \$5 per player per year.

# Pacific FC's Success Story

Pacific FC is a youth soccer club based in SW Washington State that provides competitive soccer programs for players aged U10 through U19. As part of their commitment to player development, they believe in creating opportunities for players to train outside of team practices.

**Before Anytime, we emailed Youtube videos that were impossible to follow and we didn't know if the players were doing them.**

**- Filly Afenegus, DOC**

To address these challenges, Pacific FC switched to Anytime Soccer Training. The program is affordable and offers over 5,000 videos that are 100% follow-along and accessible on any device.

With teams, leaderboards and player monitoring, coaches can provide training homework while players can compete and hold each other accountable.

The result is that players get thousands of extra touches improve their skills, and boost their confidence. Pacific FC not only enhances player development but also strengthens its relationship with player's families.

Just wanted to say my girls love anytime soccer!  
It's been 3 days and they got more quality touches on the ball in these 3 days than in the past week or two! Love the 5 minute videos and reward/goal setting! ... [More](#)
